✔ **Audio editing**

Work experience

"Planeta Precios Bajos" - E-commerce. February 2023

Web app made with the MERN Stack. (Mongo, ExpressJs, React, NodeJs). E-commerce that provides an automatization of the sales.

It has functionalities such as ARS to US currency convertion, inventory control, offer-automatization system, shipping services and contact elements.

"La esquina Glupis" - Stock app. January 2023

Desktop app developed using ElectronJs, NodeJs, Bootstrap and MongoDB. Stock control for a ice-cream shop based on CRUD functionalities.

This was my first experience in the process of making a desktop app.
